INSTALLATION AND USAGE

• Installation

Simply screw the nozzle and hose together for easy connection.

ADJUSTABLE WATER FLOW

Rotate the Water Flow Control Dial clockwise - to decrease flow rate or counterclockwise + to increase flow rate.

• Adjust the Spray Patterns

1. Hold the nozzle handle and press the trigger to spray (the trigger can be secured with the buckle). The default of the spray mode is mist mode.

2. Rotate the nozzle clockwise to change the spray mode, from the initial maximum fine mist mode to jet mode, and turn it all the way for shower mode.

3. After rotating the nozzle to its maximum position, and it cannot be turned any further; you can only rotate it back to tighten, returning it to shower mode.

OPERATION & SAFETY INSTRUCTIONS

Flow Adjustment: If no water comes out, turn the Flow Control Dial toward "+".

Outdoor Use Only: Use this product outdoors only.

Electric Shock Hazard: Keep spray nozzle and water stream away from power sources, outlets, and electronic devices during use.

Temperature Limits:

Water: Do not exceed 115°F (46°C)

Air: Do not operate below 40°F (4°C)

Storage: Drain completely and store indoors away from freezing temperatures.
